PVC Formulation

Cologne / 2019

PVC Formulation 2019 will provide a forum for the PVC industry to discover new technical developments in rigid and flexible PVC formulations.

Over a packed two-day agenda, expert speakers will discuss global market trends influencing the PVC supply chain. They will look at developments in plasticisers, innovative additives for PVC compounds and cost-reduction and performance improvement of rigid PVC formulations. There will be an exploration of the latest innovative formulations and applications to help drive continued industry growth, as well as a session on how to ensure flame retardancy of PVC compounds. The conference closes with an overview of changing legislation affecting the PVC industry and industry-driven sustainability.

This international conference gives attendees the unique opportunity to learn about innovative technical advances and discuss critical issues such as sustainability and legislation.

It is the perfect meeting place for attendees to make new contacts and gain valuable insights into the latest technical and business trends in PVC. In addition to two days of high-level presentations, this event offers fantastic networking opportunities in a busy exhibition area.

AMI welcomes all members of the PVC industry to attend PVC Formulation 2019. Don't miss out on this year's biggest PVC event.
