## ICC Solutions partners with Omni Integration

ICC Solutions, a global leader in the provision of EMV test tools and certification testing services, is delighted to announce a strategic alliance partnership with Omni Integration, a Tier One Payments Solutions Technology Provider.

In a mission to support the test and certification requirements of clients developing and deploying EMV POS solutions, the partnership will focus initially on reselling opportunities of ICC Solutions extensive range of fully qualified EMV level 2 and 3 test tools used to perform type approval and end-to-end payment brand accreditation tests on EMV chip terminals.

The partnership is ideally positioned to offer the test tools and consultancy services necessary to support worldwide EMV migration, in addition to key industry initiatives, such as the introduction of new technologies and payment platforms.

Derek Ross, Head of Sales and Business Development at ICC Solutions, commented: "We very much welcome this new partnership which offers ideal synergy combining the diverse core strengths of both companies, thus enabling exciting new business opportunities for the benefit of both companies' client bases, as well as the potential to open up new markets."

Omni Integration has aligned this new partnership with its broader payments technology portfolio. Shawn Usmani, Director of Global Technology, has added, "This new partnership will allow us to deliver on our shared vision of rapid payments technology enablement for our clients and partners by leveraging the extensive technical and certification capabilities between our two groups. We look forward to offering this new combined solution set that will greatly reduce time to market for new and exciting payments initiatives."

### **About ICC Solutions Limited**

ICC Solutions Limited is a global leader in the provision of EMV test tools, plus testing and certification services, offering the complete set of qualified test suites for payment brand accreditation testing of contact and contactless EMV terminals. Our tools are used worldwide and recognised by EMVCo, payment brands and labs.

Working with merchants and acquirers in the USA and globally for over 20 years, ICC Solutions has developed an enviable portfolio of products to assist with all phases of the EMV testing cycle including development, QA, validation, certification and regression testing – a proven way to reduce costs and improve time to market.

## **About Omni Integration**

Omni Integration provides specialty payment application and platform support for Retail, Specialty Retail, Hospitality, Health, and Insurance industries. Our expertise in payment device hardware, kernel software, security, and gateway integration services have enabled enterprise mobility and omni-channel payment solutions for Fortune 100 organizations around the world.

By combining this technology expertise with a least-cost implementation approach, Omni Integration has removed the barriers to new generation payments technology initiatives with rapid and cost-effective delivery models.
