

Queen

Queens during heat, gestation and lactation

A unique nutritional profile (adapted energy content, betacarotene and essential fatty acids) to meet the specific needs of reproductive queens from the 1st day of heat, during gestation and through to the end of lactation.

An adapted formula to help stimulate the queen's food intake to help the queen store energy needed for future lactation.

DHA helps support the foetus's brain development during gestation and lactation.

L.I.P: Selected protein with digestibility **over 90%** (Royal Canin).

INGREDIENTS	

INGREDIENTS

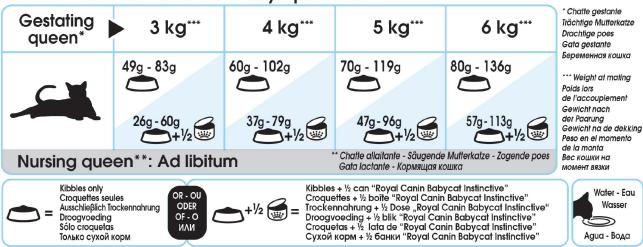

COMPOSITION: dehydrated poultry protein, animal fats, maize, vegetable protein isolate*, rice, vegetable fibres, hydrolysed animal proteins, yeasts and parts thereof, beet pulp, fish oil, soya oil, minerals, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), marigold extract (source of lutein).

ADDITIVES (per kg): Nutritional additives: Vitamin A: 27000 IU, Vitamin D3: 600 IU, E1 (Iron): 42 mg, E2 (Iodine): 4.2 mg, E4 (Copper): 13 mg, E5 (Manganese): 55 mg, E6 (Zinc): 164 mg, E8 (Selenium): 0.07 mg, Beta-carotene: 30 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

* L.I.P.: protein selected for its very high digestibility.

- 24H - Recommended daily quantities

IT IS RECOMMENDED THAT DAILY RATION BE CONTROLLED
TO AVOID ANY RISK OF EXCESS WEIGHT GAIN WHICH COULD AFFECT THE ANIMAL'S HEALTH
